

Number Tracing Worksheets

Numbers and number words 0-20

0 1 2 3 4 5

Created for preschool and kindergarten learners

Print at 100% scale. Adult guidance recommended.

For personal and classroom learning use.

A simple guide for grown-ups

Build number confidence one page at a time.

1

Trace the number

Follow each dotted number slowly with a finger, then with a pencil or crayon.

2

Trace the number word

Say the number aloud while tracing its written word from left to right.

3

Count the dots

Touch and count each colored dot. The two frames help children see groups of ten.

4

Write and find

Practise independently, then circle the target number in the mixed-number row.

Helpful tips

- Invite the child to move one small object for each counted dot.
- Begin with familiar numbers and progress gradually toward 20.
- Repeat favorite pages and celebrate effort at the child's own pace.

These worksheets support practice and do not replace professional educational advice.
